### Feedback analysis and Action taken report (2018-19)

Feedback is collected, analyzed, and sent to the respective authorities for action. Students emphasized the strengthening of extra-curricular activities. Formal instructions were circulated by the competent authorities to ensure the interdepartmental arts and sports competitions. Efforts were made by the teachers for the departmental exhibition, conferences, interdepartmental competitions, etc. Students are satisfied with the depth of the syllabus. They believed that the syllabus covered all the aspects of the curriculum. Most of the suggestions from the teachers include emerging research and practical application needs in the syllabus. Formal instructions were disseminated by the authorities to address the issue suggested by the teachers through feedback. Teachers were satisfied with the syllabus being suitable for the course and need-based. The assessment was well correlated with the syllabus and teaching and learning methods. The feedback from alumni emphasizes strengthening communication skills and suggests giving more training for competitive exams. MCQ-based assessments were conducted regularly for the students for better results in competitive exams. Instructions were aired by the authorities and made to participate in the academic-related program that helped them improve their communication skills.

### **Feedback analysis and Action taken report (2019-20)**

The feedback committee of the college has taken action on the feedback received by the students, in the academic year 2019-20 in the following manner. Students' responses denote high desirability and scope for the betterment of infrastructural facilities related to the overall campus, classrooms, toilets, and sports centers. So the feedback analysis committee forwarded the issue related to this to the college administration. The emphasis was also on different intra and inter-college competitions taking place from time to time. The Committee ensures that each notice and advertisement related to the student's program must reach the students of each course combination. Therefore, WhatsApp groups made for each subject are used to disseminate the information. Besides college puts all the notices on the website and students are advised to visit the website regularly. Various program committees were organized and intended to organize various activities regarding the development of diverse skills of the students from time to time by inviting external resource persons.

### **Feedback analysis and Action taken report (2020-21)**

Based on the student's feedback on various parameters like facilities and amenities provided by the college and teaching and learning experiences, various actions taken by the department are:-In the teaching and learning process, students are satisfied with their experiences, however, a certain percentage of students felt that the classes should be more interactive. Hence it was decided to make classes more interactive the faculty will use more and more ICT tools wherever feasible. Multiple students said that one of the biggest challenges faced during the online mode of teaching is network-related issues. For network-related issues, the college is working to update and enhance its new Wi-Fi so that the students' issues will be taken care of. Regarding network issues of students, it is suggested that teachers record important lectures and provide the recording to students in the classroom. Regarding interactive sessions, it is suggested to have at least one class in fifteen days for general discussion with students to make online classes lively

**Feedback analysis and Action taken report (2021-22)**

An online meeting was organized with all the teachers of all departments on 15 Sep 2021 on the Google platform to discuss action taken on students' feedback all the faculty members of the college attended the meeting.

The following points were decided for further action. Students will be further encouraged to participate in co-curricular activities. More practical classes are to be held once all the students are vaccinated. Organizing more guest lectures and online events for student engagement. The challenges faced by the students are communicated to all the faculty members for necessary improvements. Most of the challenges faced are due to the long hours of mobile or computer exposure. So teachers are advised to give offline working flexibility, this will reduce the stress on the eyes of students. Teachers need to be more cooperative with students and behave appropriately while engaging with them as well as strive to understand their difficulties and questions. And support them wherever they have problems. Students will be asked occasionally if they need any type of academic and emotional support.

### Feedback analysis and Action taken report (2022-23)

Students' responses to the teaching-learning experience seem encouraging, and effective communication between the teacher and students proves motivating. The use of ICT tools and teachers' punctuality and regularity play a big role in workplace productivity. There are certain matters of concern and some of those beyond the purview of departments like related to the infrastructure, lack of placement, etc. Some suggestions and challenges indicate that at the department level, certain measures could be taken to further increase student satisfaction. The following steps have been initiated by the departments:

It has been strictly told to the department members that 100% syllabus needs to be completed by everyone without any exceptions, and no excuses can be entertained in this regard. As for internal assessment, continuous assessment is based on tests and assignments rather than a single assignment at the end to be done. It has been reiterated that all tests and assignments be promptly, objectively, and carefully evaluated. Teachers have been told to teach using proper screen-sharing and or whiteboard as per the requirements of the lectures. The whole department agreed on further enhancement of their ICT tools. Mentor mentee program to be taken more seriously.
